GREAT DISCOVERY!

Dr. H. SMITH

Now in possession of a new discovery in
medicine, which is purely a local anes-
thetic, and acts almost instantaneously on the
surrounding tissues of the teeth. It is in
no way injurious or unpleasant to the
taste. The manufacturers of it claim that
its equal has never been known before, and
by applying it to the sensitive or sore
tooth, they can be cleaned and filled
without pain. So all those that want all
kinds of dental work done without pain,
would better call on Dr. H. Smith. Teeth
extracted for 50 cents.

TELEGRAPHIC SUMMARY.

Coal Oil Explosion.

SALE LAKE, Aug. 27.—Yesterday
a boy threw a lighted match into a
coal oil can, causing an explosion,
which resulted in the death of Cleo
Garner, aged five, and Guy Jordan,
aged six years, and the serious in-
jury of David Jordan.

Game to Canada.

DETROIT, Aug. 27.—A special
from Hillsdale, Michigan, says:
Charles W. Waldron, one of the
owners and managers of the Wal-
dron bank of this city, has ab-
sconded, taking with him money
and securities variously estimated
at from \$60,000 to \$80,000.

Delinquent City Marshal.

LOS ANGELES, Aug. 27.—At the
city council meeting to-day a special
investigating committee reported
great laxity on the part of Chief of
Police Cuddy in refusing to suppress
gambling and ignoring the city ordi-
nance. The committee recommend-
ed his removal.

Snow Sheds.

SACRAMENTO, Aug. 27.—Two
hundred feet of snowsheds was de-
stroyed by fire at Yuba City last
evening, delaying overland trains
both ways. A great forest fire has
been raging for three miles along the
road, and is still burning. Three
fire trains have been sent from here.

Short Crops in Egypt.

ALEXANDRIA, Egypt, Aug. 27.—
Reports have been received showing
that the Egyptian corn crop has
seriously suffered. The reports also
say that it will be impossible to
grow wheat in Upper Egypt in 1889,
and that the greater portion of other
crops can only be cultivated at in-
creased expense.

Forest Fires.

NEGAUNEE, Mich., Aug. 27.—
From the difficulty to get reports
about the forest fires near Nevada it
is believed that they are worse than
at first reported. Several buildings
were burned last night and the
village is going by piece meal. A
number of families living on farms
escaped with nothing but their
clothes and are now being cared for
at Powers. Owing to the flames and
smoke it is impossible to tell whether
people living farther back from the
settlements lost their lives or not.
The family of seven reported miss-
ing from Mumford have not been
heard from.

Kisses.

A prominent physician calls the
kiss "an elegant disseminator of
disease." He says, "fever is spread
by it, so are lung diseases." He
maintains that if the kissing cus-
tom were driven out of the land "it
would save one-tenth of one per cent.
of human lives," which are now
sacrificed. Out upon the gnarled
and sapless vagabond! Evidently
kisses are not for such as he and the
old fox says, the grapes are sour.
Let him devote himself to making
our women healthy and blooming
that kisses may be kisses. This can
surely be done by Dr. Pierce's
Favorite Prescription which is
magical in its effect, upon all
diseases peculiar to females. After
taking it there will be no more ir-
regularity, no more headache, no more
morbid nervous prostration, no more
general debility. All druggists.
To regulate the Stomach, Liver
and Bowels, Dr. Pierce's Pellets
excel. 25 cents a vial; one a dose.

A Choice Investment.

The Mexican Land and Develop-
ment Company, of No. 57 Broad-
way, New York, have acquired a
grant of public land in the state of
Tamaulipas, Mexico, covering sev-
eral million acres. It covers the
most fertile section of land on the
Continent, with a soil so rich and a
climate so perfect that three crops of
some cereals are produced in one
year. Its forests are also impassable
with the growth of rare and valu-
able woods. The standing timber
alone more than warrants the cap-
italization of the company controlling
the grant, yet in value it represents
but a fraction of the worth of the
millions of acres inexhaustible in
fertility and productiveness. A
limited amount of the Company's
stock is offered for sale at 50 per
share. With each share is given a
certificate which entitles the holder
to five acres of land free. See ad-
vertisement elsewhere.

Our Cattle Interests.

The last three years have been
marked by low prices for cattle, and
the ranch-owners of the far west and
the stock-feeders of Missouri,
Illinois, Kansas, and Texas are now
complaining that there is no longer
any profit in the business. Indeed,
except in cases where it is favored
by special conditions, it is attended
by positive loss. It seems to be the
impression that the combination of
dealers and packers in Chicago has
brought this state of things about,
and that all the profits of the cattle
business are now monopolized by
this combination, which makes both
the buying price for cattle and the
selling price for beef. This may be
part of the explanation of low prices,
but it is not the whole of it. There
is another agency at work, and it is
6,000 miles off. The development of
a large cattle trade between the Ar-
gentine Republic of South America
and the markets of Europe in the
last few years is one of the features
of that republic's amazing progress,
and it bodes no good to our stock-
breeding interests. When American
cattle are shipped abroad they are
shipped to be sold in open market
for what they will bring, and there
they encounter Argentine cattle,
which are raised at a smaller cost.
In plain words, we cannot compete
with that republic in raising sheep
and cattle, and under the present
sympathetic relations between
distant countries, the low prices
that prevail there are having an
effect here. The British have lines
of swift steamers plying between
their ports and Buenos Ayres, and
as they have the privilege which we
have not, of buying what they want
in the cheapest market, they have
begun to import Argentine beef and
mutton in place of American.—St.
Louis Republic.

"The World Moves."

Maintained Galileo, when his tormentors
ruined him for advocating the true system
of Copernicus. Certain follies hold out,
however, against the illumination of sci-
ence and experience. There are hosts
of people who, because they have adopted
certain principles, continue to swallow
them to their dying day in defiance of the
laws of common sense. Mercury, dras-
tic purgatives, super-potent narcotics
and sedatives, though they have given
ground before the irresistible progress of
Hosett's Stomach Bitters, a national,
painless remedy for disorders of the liver,
the stomach and the bowels, still continue
to make ambulating apothecaries shops of
many stomachs. The symptoms of liver
troubles are easily remediable without any
abdominal disturbance with this benev-
olent alternative, so also are constipation,
sick headache, heartburn and an inability
to digest satisfactorily. It cures fever and
ague, rheumatism and kidney trouble.Subscribe for the CAPITAL JOUR-
